RE: Alternate Test Procedure Application Nos. D93-0005 and N93-0011

Dear Mr. Ranger:

We are pleased to inform you that in the judgment of our technical staff, the proposed method 10-107-05-1-A dated March 23, 1993, is an acceptable version of the approved method EPA 353.2 for drinking water. Therefore, no alternate test procedure application is necessary. Method 353.2 is not currently listed as approved for wastewater analysis. The Alternate Test Procedures Program Staff thanks you for your interest in the development of environmental methods.

Sincerely yours,

James W. Eichelberger  
Director

Quality Assurance Research Division
