Dear Mr. Diamond:

We are pleased to inform you that in the judgment of our technical staff, the proposed method 10-117-07-1-H dated December 13, 1994 is an acceptable version of the approved method EPA 325.1 for Chloride in wastewater, dated 1978. Therefore, no alternate test procedure application is necessary. The Alternate Test Procedures Program Staff thanks you for your interest in the development of environmental methods.

Sincerely yours,
